REFERENCE

: K-8104, 4 September 1973

1. Per our phone conversation on 5 September 1973, we are forwarding one copy of "Atlas, Issues in the Middle East", May 1973 (Secret), without sanitization. Your own requester of the Atlas is in the best position to know how much sanitization is required before forwarding the Atlas [REDACTED]

2. However, if your requester feels that the Atlas should be sanitized, this can be accomplished simply by removing only the front cover and the first sheet (the unnumbered pages 1 and 2).

3. On future requests of this kind it would be very helpful to us to know the degree of sanitization required. However, I have not been able to think of a simple way to accomplish this, except as you might be able to solicit such guidance from a requester at the time of request.
